Dear mama <3 Papa. I'm sorry for what I'm gonna do, hopefully you will find this paper. I want you guys to know that none of it is your fault, or anyone else's in that matter. I chose to do this by myself, for myself and Adam Lanza. They told me that Adam would come back to me if I did this for him, Adam Lanza wanted it, I think its a fair and beautiful sense of devotion on my behalf. I Love Adam Lanza, we're soulmates, just waiting to be reunited once more. I want you guys to know that you were the most perfect parents ever. I'm sorry I could not be a better child. I've known theres been something wrong with me since I was little kid, I just never showed it and I'm sorry. I was never really shy, I just hated people and I was aware of how disgusting everyone is, being forced to talk was torture. I pretended to be a Socialite to make you guys happy, because I loved seeing you guys happy, It was one of the only things that made me happy. Over the years I've just lost control over myself and my emotions. Whenever I told someone I hated you guys, It was a pure lie. I'm sorry for ever hurting you, and I deserve what's coming for me as I am also disgusting, cruel and useless

Do you think he actually switched out??? like I feel like she wouldn't have even got the ticket, maybe he's just skipping cause I creeped him out

most likely he is ← I Honestly think he's just skipping, but

I doubt it, he doesn't even know my name either, probably didn't even read it Stop thinking he'll Probably just avoid me because it wasn't THAT weird ← Maybe he's in the process of getting something against u (I just had this thought) (I hope he doesn't get restraining order)

↑

Buttt maybe he did notice all those other times you were following and filming him.

NO he would've already told his mom... I've been doing it for like 2 weeks, ~~he just probably th~~ well no actually he has, most likely he turns around sometimes ← probably

↑

like staring at us? ← no like when I get personal shots (when im alone) he looks

at me sometimes, he's probably stared at us walking by though since me and william love

It was just like any other normal day...
I swear nothing seemed off.. until I remembered
him. Oh [redacted] how much I loved you... today was
finally the day.. you're so worth it... fuck we
were leaving 2nd Period... I grabbed him
I dont know what happend but I just started
talking "oh you're so beautiful..." the cutest
boy around I loved him very dearly...
I would ruin my life for him, and that is very
much what I was doing.. I was able to get
my hands on some chloroform.. It knocked
him out cold it was absolutely perfect..
I was already in the bathroom with him..
he hadn't had woken up yet so I was
just waiting.. he was SO small, So precious
I had been waiting for this for a long time.
Slowly, he woke up... I saw those
beautiful eyes I much adored.. finally up close.
He was absolute perfection.. "hi sweetheart"
I said it without thinking, he looked extremely
disturbed... I don't blame him who wouldn't
LOL.. He didn't speak just looked in terror.
I pulled the knife out of my bag and held
it up to his throat. I saw the fear, I saw his
breath hitch it gave me more adrenalyn. I
pulled my phone out and started recording

h.m. "Can you smile for the camera?" I held the knife closer to his throat. I watched as he forced himself to smile, just for me.
